

## **GENERAL PRODUCT INFORMATION:**

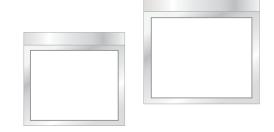

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for damp locations.

This product can be dimmed with a low-voltage electronic dimmer.

This product may be ceiling or wall mounted.

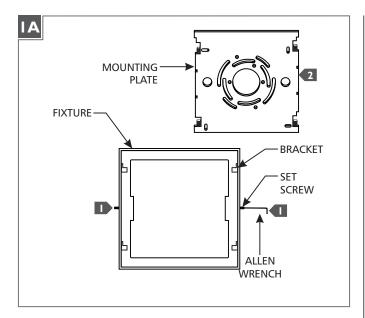

## **CAUTION - RISK OF FIRE**

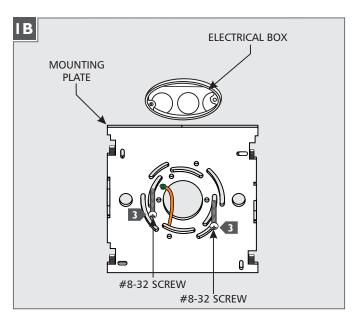

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°c supply conductors.

## **Install the Mounting Plate**

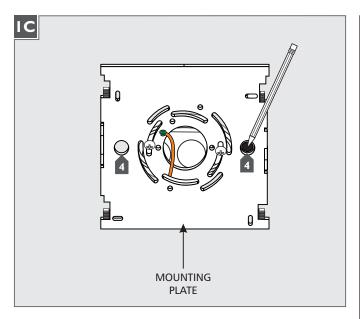

- Loosen (do not remove) the two set screws on the fixture using the provided Allen wrench.
- 2 Separate and remove the mounting plate from the back of the fixture by sliding it out of the brackets.

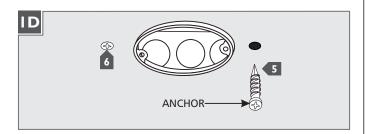

For Tenur 9 Only: Secure the mounting plate to the electrical box with the two #8-32 screws. Skip to step 1F.

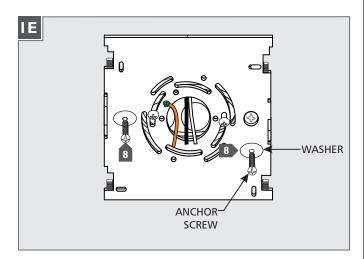

For Tenur 12 Only: Temporarily install the mounting plate to the electrical box with the two #8-32 screws.

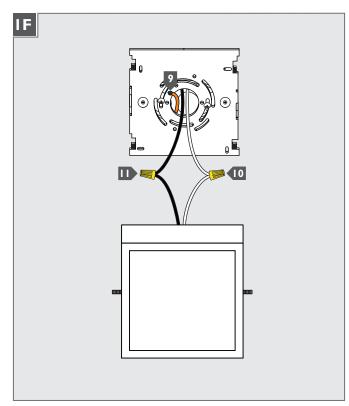

4 Mark the two anchor locations and uninstall the mounting plate from the electrical box.

- At the marked location, push the anchor in up to the threads.
- 6 Screw the anchor the rest of the way in with a screwdriver.
- 7 Reinstall the mounting plate to the electrical box.

Secure the mounting plate to the anchors with the washers and anchor screws.

- Connect the fixture to a suitable ground in accordance with local electrical codes.
- Connect the white driver wire to the neutral power line wire with a wire nut.
- Connect the black driver wire to the hot power line wire with a wire nut.
- Properly places all wires and wire nut connections into the electrical box and reinstall the fixture to the mounting plate (reversal of step 1A).
