

vitre suspension square

DESCRIPTION

Two wave-cut acrylic panels separated by open air define this intriguing suspension fixture. Using LED light-guide technology, the light source is embedded within the brushed metal frame then redirected downward using a special honeycomb grid pattern etched into the panels to create diffuse ambient light. Includes 12' of field-cutttable aircraft cable and (1) 40 watt 3200 lumen 3000K 80 CRI LED module. Dimmable with a low-voltage electronic dimmer. 120v or 277v.
